

Nursery

In Pre-school we begin developing an understanding of History by learning about ourselves, looking at who is in our family, talking and sharing about significant events and their own experiences. We progress and teach the children about wider historic events through our weekly Understanding Of The World activities and our monthly All around the world topic, where we learn about a different country and its customs. Recently the children have learnt about the Queen and her role as part of Rule of Law Day . The children learnt about France and learnt about many historic French monuments such as the Eiffel tower and the Arc de Triomphe. We also celebrate important events throughout the year such as Remembrance Day.
